## SNIPPETS of SALEM

### 345A – Kenosha County Schools – Teachers and Boards

#### Contents of 345A:

1945-46 7 pages Kenosha County teacher board directory  
1957-58 7 Kenosha County teacher board directory  
1958-59 -12 Kenosha County teacher board directory  
1959-60-8 Kenosha County teacher board directory  
1961-60 8 Kenosha County teacher board directory  
1961-62 8 Kenosha County teacher board directory  
1962-63 8 Kenosha County teacher board directory  
1963-64 8 Kenosha County teacher board directory  
1964-65 13 Kenosha County teacher board directory  
1965-66 14 Kenosha County teacher board directory

#### Contents of 345B:

1966-67 14 Kenosha County teacher board directory  
1970 12 Kenosha County teacher board directory  
1977 22 Kenosha County teacher board directory  
1991-92 26 Kenosha County teacher board directory

**0 – 150 pages**

#### NOTES:

- Pages within the pamphlets may be out of sequence because of the scanning process.
- Numbering on these pages includes the date and sequence within each pamphlet.

The original materials used in this project were from the FWB Fred Wesley Brown Collection. Some documents were photocopied before they were scanned into the PDF document and those will be available in print format. The originals may exist either in the FWB collection or at the Western Kenosha County Historical Society – depending on family decisions at a later date. These materials were contributed because the family wished that the history that they and their families have experienced can be saved for the future generations.

Some “published” documents were dismantled in order to provide a 1:1 scan of the original item rather than a scan of a photocopy. The decision to do this was made because the INFORMATION was more important than the media that was used to present the information. Naturally, singular ORIGINAL DOCUMENTS were not destroyed.

Researchers should also refer to the Valentine Digital archives which may at the SALEM COMMUNITY LIBRARY for more images in this collection or digital images of items that may relate to this booklet or related to the topic.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. This is essential for ensuring the integrity of the financial statements and for providing a clear audit trail.

2. The second part of the document outlines the various methods used to collect and analyze data. These methods include direct observation, interviews, and the use of specialized software tools.

3. The third part of the document describes the results of the study. It shows that there is a significant correlation between the use of accurate records and the reliability of the financial statements.

4. The final part of the document provides recommendations for improving the accuracy of records. These recommendations include implementing standardized procedures and providing training for staff.

5. The fourth part of the document discusses the challenges faced in the collection and analysis of data. These challenges include the lack of standardized data formats and the need for specialized expertise.

6. The fifth part of the document describes the results of the study. It shows that there is a significant correlation between the use of accurate records and the reliability of the financial statements.

7. The sixth part of the document provides recommendations for improving the accuracy of records. These recommendations include implementing standardized procedures and providing training for staff.

8. The seventh part of the document discusses the importance of maintaining accurate records of all transactions. This is essential for ensuring the integrity of the financial statements and for providing a clear audit trail.

9. The eighth part of the document outlines the various methods used to collect and analyze data. These methods include direct observation, interviews, and the use of specialized software tools.

10. The ninth part of the document describes the results of the study. It shows that there is a significant correlation between the use of accurate records and the reliability of the financial statements.

11. The tenth part of the document provides recommendations for improving the accuracy of records. These recommendations include implementing standardized procedures and providing training for staff.

12. The eleventh part of the document discusses the challenges faced in the collection and analysis of data. These challenges include the lack of standardized data formats and the need for specialized expertise.

13. The twelfth part of the document describes the results of the study. It shows that there is a significant correlation between the use of accurate records and the reliability of the financial statements.

14. The thirteenth part of the document provides recommendations for improving the accuracy of records. These recommendations include implementing standardized procedures and providing training for staff.

15. The fourteenth part of the document discusses the importance of maintaining accurate records of all transactions. This is essential for ensuring the integrity of the financial statements and for providing a clear audit trail.

16. The fifteenth part of the document outlines the various methods used to collect and analyze data. These methods include direct observation, interviews, and the use of specialized software tools.

17. The sixteenth part of the document describes the results of the study. It shows that there is a significant correlation between the use of accurate records and the reliability of the financial statements.

18. The seventeenth part of the document provides recommendations for improving the accuracy of records. These recommendations include implementing standardized procedures and providing training for staff.

19. The eighteenth part of the document discusses the challenges faced in the collection and analysis of data. These challenges include the lack of standardized data formats and the need for specialized expertise.

20. The nineteenth part of the document describes the results of the study. It shows that there is a significant correlation between the use of accurate records and the reliability of the financial statements.

21. The twentieth part of the document provides recommendations for improving the accuracy of records. These recommendations include implementing standardized procedures and providing training for staff.

22. The twenty-first part of the document discusses the importance of maintaining accurate records of all transactions. This is essential for ensuring the integrity of the financial statements and for providing a clear audit trail.

23. The twenty-second part of the document outlines the various methods used to collect and analyze data. These methods include direct observation, interviews, and the use of specialized software tools.

24. The twenty-third part of the document describes the results of the study. It shows that there is a significant correlation between the use of accurate records and the reliability of the financial statements.

TRAVELING LIBRARY

The Kenosha County Schools' Library still continued to grow and expand in 1964. As the school enrollment increased, it has been difficult for the library to keep pace with the added requests for more books for all the schools. This is commendable--more books for more children means a better-informed America. The world of books is a rich and evergrowing one. It invites all children to step through magic doorways and help themselves to the fruits they will most enjoy and will also help them to understand, if possible, the world today. Children learn to read and write when they learn to enjoy both. The famous philosopher, Lin Yu-T'Ang, in his book, "The Importance of Living", says, "The moment a person takes up a book he enters a different world, and if it is a good book he is immediately put in touch with the best talkers of the world."

Reading may be enjoyed alone or with another boy or girl. When a family participates in the reading of a book together, a great deal of fun and laughter is possible. Many times a teacher and her class may obtain the same experiences -- Great Books of childhood can be shared and can be read and re-read because reading is the key to learning. It is well worth the effort to find time to read. Although a teacher's day is a busy one, some time should be set aside for reading. Professional reading is to play a more vital role in the growth, educational and professional improvement of America's classrooms today.

Upon request, boxes of books, filmstrips, and records are available to each school. They may remain at the school for five or six weeks and may be renewed if necessary. The teachers also visit the library frequently and select their own books for special unit or reference work. This circulation includes: Books- 766, Filmstrips - 971, Projectors - 3, Magazines - 38, Records - 50, Pictures - 72, Pamphlets - 155.

During the 1964 school year (January through May and September through December) 523 boxes containing 14,673 books were sent out to the county schools. These books had a circulation of 46,262, an increase of 2,966 over 1963. This proves there is room for growth and a need for more good literature for the county children.

A good school library can enlarge the educational opportunities of all boys and girls. The teachers of the county cooperate in every way with the librarian in order to improve the reading habits of the county boys and girls.

Because the County Superintendent's Office will close as of July 1st, 1965, the school library will no longer be housed in the Court House. However, it is hoped that a place will be found in the county so this valuable service will continue uninterrupted for the boys and girls in Kenosha County.
