PARENTS OR GUARDIANS PLEASE READ

This report will be filled out and sent to you for inspection each six weeks.

If a pupil receives a low grade on any subject, it should be made a matter of immediate inquiry. Possibly it is to be attributed to lack of study, to too many outside engagements, to irregularities in attendance or to some cause which may be removed.

Special attention is called to the serious consequences of Irregular Attendance. It is important to remember that the loss of even a portion of a school session often proves to be a serious interruption to progress, and tends to produce a lack of interest in the school work. Excuses showing good cause for the absence or tardiness should always be sent promptly to the teacher on the return of a child to school. Neglect of this may cause the child to be sent home after the excuse.

We suggest that you talk over this report with your child each time it is received, and if it has any peculiar needs which are indicated to you by the marks on this card, that you confer with the teacher or superintendent regarding it.

If the parents could show their interest in the child and school by occasional visits to the school it would prove a great source of inspiration and help to both pupil and teacher.

Your hearty co-operation is solicited in the endeavor to secure the best development of your child.

To Parents or Guardians:

In transferring this report it is the aim of the school to impart to parents or guardians information relative to the school interests of the pupil. It may be considered an index of that part of the pupil's school life herein designated.

From the estimate made, not only of scholarship but also of conduct, it is hoped that you will be enabled to judge whether or not good work is being done. If results seem unsatisfactory, endeavor to have the following conditions fulfilled by the pupil with the hope that school attainments may be enhanced:

Attendance at school every day

Regular and uninterrupted study periods at home.

The exclusion of all social engagements that might interfere with school duties.

Teachers earnestly desire the improvement of the pupils and will be glad to confer with the parent or guardian concerning any point that may be suggested by this report. By mutual co-operation often much good can be done. The most convenient time for consultation with the principal or instructors is at 4 p. m. each school day. The parent or guardian is requested to examine this report carefully each month and to acknowledge its receipt by signing in space provided. Kindly return at once.

(You owe it to your child to visit the school. You should find it a pleasure)

KENOSHA COUNTY SCHOOLS KENOSHA, WISCONSIN

School Norman
 Report of Norman Stockwell Grade 8
 Year 1936-37 Teacher Mrs. J. J. Smith
 5-6-7-8

The aim of Kenosha County Schools is to lead pupils to a mastery of the fundamental knowledge, habits and skills which are the tools of education and to assist your boy or girl in becoming a better, more useful citizen.

This report is not intended to compare the work of one pupil with that of others. It is a message to you parents which attempts to familiarize you with the experience of the pupil in his school life, especially in terms of his growth as compared with his ability to progress.

This report will be supplemented, whenever it is thought best, by a letter from the school.

It is our aim to provide every child with the best conditions possible for his school success, and we need your help.

C. L. EGGERT, Superintendent

Light for All

The light pours down from heaven
And enters where it may;
The eyes of all earth's children
Are cheered with each bright ray.
So let the mind's true sunshine
Be spread o'er earth as free
And fill men's waiting spirits,
As the waters fill the sea.

Then let each human spirit
Enjoy the vision bright;
The truth which comes from heaven
Shall spread like heaven's own light
Till earth becomes God's temple,
And every human heart
Shall join in one great service
Each happy in his part.

America

My country, 'tis of thee,
Sweet land of liberty,
Of thee I sing:
Land where my fathers died,
Land of the Pilgrim's pride,
From every mountain side
Let Freedom ring!

Our fathers' God to Thee,
Author of liberty,
To Thee we sing:
Long may our land be bright
With freedom's holy light;
Protect us by Thy might
Great God, our King.

WHITLEY SCHOOL

As far as the records show Whitley School on county trunk X near Highway 142 was started in 1868. The subjects consisted of reading, language, spelling, writing, arithmetic, social studies, science, health and safety, music, art and physical education.

There were approximately 12 to 15 children. The school day consisted of six hours; (9:00-12:00)-(1:00-4:00). School started the term in September and closed in May. Some children took winter terms and summer terms. The children's transportation to school was to walk or if raining, they took a horse.

If the teacher was absent a substitute would take her place. In the records found of the school board's meetings, a female teacher would be employed. The teacher's wages throughout the year was \$120.00.

Punishments were to stay in at recess or to do extra work. The school was not warm, it was heated by a stove. The school was located in district 9.

Here is some accounts included in the reports:

1868- The teacher's wages were \$120.00. John Wadsworth became treasurer for the next 3 years. There would be 4 months of winter school and 3 months of summer school. It was voted that a female teacher be employed.

1869-Avis Foxwell became the teacher for 4 months for the sum of \$30. Land work was done.

1870-Two new back houses were built. John Willmore dug a new well.

1875-The teacher is William M. Smith. He will teach a term of 3 months for the sum of twenty-two dollars. John Ramsden was elected treasurer for 3 years. There will be 4 months of school in winter, 3 in summer.

1877-The teacher is Martha Leach. She teaches for 3 months for the sum of seventeen dollars. District clerk is Thomas Whitley.

1878-A new schoolhouse is built. Mr. R. Blackburn, T. Whitley, and M. Epers will build a 22' X 32' or smaller school out of brick, with 6 windows. The old school house is sold to Mr. Vice for \$14.75.

Henry Swanz is the clerk.

1886-John Murdock was elected chairman. Robert Blackburn was elected director for 3 years. Thomas Whitley furnishes 3 cords of dry wood and cut for the stove for \$13.50. There was 6 months of school, 4 winter, 2 summer. They decided to build a suitable woodshed. They destroyed all old books and papers that were no longer needed.

1891-It was decided to build the new schoolhouse out of brick.

1899-Mat Epers was elected chairman. It was decided to have 8 months of school. They bought wood from Harry Whitley. Four cords of second growth for \$14.00.

1915-The teacher was Ethelwymm Ogden. The clerk was Albert Murdock. Thomas Whitley was elected treasurer for 3 years. It was decided to have 8 months of school. The school house was painted. A 3 foot concret walk was put in. It was voted for more land. It lost, 7-13.

The school was then moved to Wickman's Shady Nook mobile home park.

On account of the Bong Air Base, most of the children from the park went to the school. The Bong Air Base was started in about 1955. Many farms would be crushed by earthmovers for the new base. The Air Base was named after Wisconsin's flying ace of World War II, Major Richard Bong of Poplar, Wisconsin. Bong was bogged down in years of litigation and discussion. The decision finally was made for a new recreation center under the supervision of the Department of Natural Resources.

Twenty five families worked on the Bong Air Base. Most of the children were children of the construction workers. Because of the Bong Air Base coming into the area, Whitley School was moved to Wickman's Trailer Park. The school was made out of a converted school bus which was owned by the conservation club of Kenosha. The school bus was parked in Shady Nook Trailer Park. The teacher was Mrs. Allyn Geary of Kenosha. Some children rode bicycles to school, although their trailers are only a few feet from the converted bus. Because of cramped conditions the children are split up into morning and afternoon classes. Recess is limited to five minutes. Books and equipment has been borrowed from the Union Grove Normal School. Desks and tables have been installed in the bus.

Suddenly the bus became crowded. A house trailer became a school for twenty one pupils. The trailer is a 50' by 10' trailer. The trailer was heated with two thermostatically controlled oil burners. Mrs. Allyn Geary, who taught the six grades of the school, totaling twenty one pupils, said, "the mobile schoolhouse is efficient, comfortable and with a few minor adjustments will be completely functional."

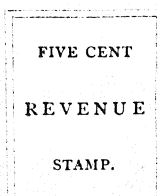

The Bong Air Base shut down in October of 1958, after alot of hard work and at a cost to the tax-payers of 15 million dollars. Today the base is a wildlife resort. Many people left their homes when the Bong Air Base was under construction. There were no houses built on the Bong, because, of the government's plan to reserve it for wildlife.

This report was done in Mr. Arthur Bushing's History class in the school year of 1976-1977. This report was compiled by Rhonda Reck and Lori Hapner.

PROGRESS REPORT

Grades: 1 - 8

Dear Parent or Guardian:

Please examine this report carefully. You will notice that the achievement of your child has been evaluated, both by evidence of his accomplishments within his class group and also by his accomplishments in relationship to his ability. While we want a child to master the fundamental knowledges, habits and skills, we are also anxious for him to grow in those character traits which will assist him to become a good citizen.

FOX SCHOOL

The history of Fox School really involves 2 different schools. The first school didn't have a name except to be called the little red school house. The second school was Fox School.

The little red school house was located one-half mile north of the intersection of EW and NN. It was abandoned about 1853, and the reason for this is unknown.

After the little red school house was abandoned, the children had to go to school in Brighton, at a school building across from St. Francis Xavier parish school.

This was quite a walk for the children since it was two miles farther. The parents wanted another school farther south because of this. There was a lot of trouble concerning the new location for a school. Finally the school building was sold and the people organized School District No. 7. They decided to put the school building at the four corners and leased a piece of land eight rods by ten rods in the Northwest corner of the Northwest quarter of Section 36 Township No. 2 North, Range No. 20 East, for a consideration of \$35 from Walter E. McVicar, in Jan. 1885. This new school was Fox School. The land was leased for school purposes only, and after the school year in 1945-46, which was its last year, it was sold and the land lease was reverted.

Among the first teachers of Fox School were Miss Wealor and Miss Gallagher. The children were taught geography, reading, language, spelling, arithmetic, art, music, and history. When the teacher wasn't there or was sick, the children got a day off.

The term went from about Sept. 5th to June 1st, with two weeks off for Christmas. The school day was 7 or 8 hours long.

Fox School was a 1 room school, the room measuring about 18 feet by 30 feet. It was heated by a pot belly furnace, and in winter the end of the room where the pot belly was was warm, and the other end was cold. The children had to walk to school every day. Some of them had to carry water to school because there was no well.

Every child had his own chore. Some of them carried wood or coal for the furnace, which the teacher took care of. Other children carried water to school.

When a child was naughty, he got one of three punishments. He had to stay in for recess, or noon hour, stay after school, which closed at 4 pm., or write a punishment 100 times, whichever the teacher chose.

Every Christmas the children gave a play for their parents.

These are some of the daily happenings: Occasionally
a skunk got into the crawl space under the school. During
World War II the children picked milkweed pods for use
in life preservers.

History class in the school year of 1977-1978.
